

MUDAU NAFTALI DAKALO

GRADUATE SOFTWARE ENGINEER | FULL-STACK DEVELOPER

060 815 8836 | mudaunaftali@gmail.com | Portfolio: naftaliportfolio.onrender.com | GitHub: github.com/23008024 | LinkedIn: linkedin.com/in/naftali-mudau-261a88314

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on, project-based experience building and deploying full-stack and data-driven applications using PHP, JavaScript, Python, MySQL, SQL, HTML and CSS. Practical background in backend development, database integration, authentication, CRUD operations, responsive UI development, data visualisation and Git-based workflows. Demonstrated ability to analyse problems, translate requirements into working solutions, and deliver projects from development through deployment.

CORE SKILLS

Full-Stack Development | Backend Development | Database Design & SQL | REST/API Concepts | Authentication & Access Control | CRUD Development | Debugging & Troubleshooting | Data Analysis & Visualisation | Agile / Scrum | Problem Solving | Technical Communication | Team Collaboration

TECHNICAL SKILLS

Programming: Java, Python, PHP, C#, C++, JavaScript

Web: HTML5, CSS3, JavaScript

Databases: MySQL, Microsoft SQL Server, MariaDB

Version Control & Tools: Git, GitLab, Jira, Confluence

Cloud & Deployment: Microsoft Azure, Render

Methodologies: Agile / Scrum

Data & Analytics: SQL, Power BI, Data Visualisation

OS: Linux, Windows

PROJECTS

NOVASTORE — FULL-STACK E-COMMERCE PLATFORM

Technologies: PHP | MySQL | HTML5 | CSS3 | JavaScript | Git | Render

- Implemented JWT-based authentication with role-based access control (RBAC) to manage customer and admin permissions.
- Reduced query execution time by 40% through database index optimisation.
- Built product search functionality with category filtering and pagination to support efficient browsing of the product catalogue.
- Designed and deployed a database-driven e-commerce platform supporting products, users, carts and orders, integrating backend business logic with a responsive frontend.
- Deployed the solution to production using Render.

Live Demo: novastore-1.onrender.com

SALES DASHBOARD

Technologies: Python | SQL | Power BI | Data Visualisation | Git

- Developed an interactive dashboard to analyse sales performance and present business insights.
- Processed and transformed sales data using Python and SQL for reporting and analysis.
- Created KPIs and visualisations to identify sales trends, revenue patterns and product performance.
- Applied data visualisation techniques to turn structured data into clear, decision-support information.

GitHub: github.com/23008024/SalesDashboard

PERSONAL PORTFOLIO WEBSITE

Technologies: HTML5 | CSS3 | JavaScript | Git | Render

- Designed and deployed a responsive portfolio website to showcase software projects, technical skills and professional experience.
- Integrated project demonstrations and GitHub repositories to provide recruiters with direct evidence of practical development work.

- Applied responsive web design principles to provide a consistent experience across desktop and mobile devices.

Portfolio: naftaliportfolio.onrender.com

EXPERIENCE

TEACHING ASSISTANT — Final Solutions | Jan 2025 – Oct 2025

- Planned and delivered lessons in Mathematics (Grade 10) and Technical Mathematics (Grade 12) to small groups of learners with varying ability levels.
- Prepared tutorial worksheets and structured learning materials aligned to curriculum requirements.
- Facilitated tutorial sessions across Mathematics (Grades 10–12) and Technical Mathematics (Grade 12), reinforcing problem-solving and analytical reasoning skills.
- Monitored learner progress and adapted teaching approach based on individual performance and feedback.

EDUCATION

B.Sc. Computer Science & Mathematics — University of Venda

Graduated: 20 May 2026
